DISTRIBUTION CHANNELS :

Taking into account the recent economic crisis ELIT sees the future of marketing strategy in diversifying the marketing channels as follows :

.
Countrywide retail organization with effective follow-ups of sales points More than 100 sales points are now active and in one year the goal is to achieve 200. They are more effective in our commercial software. They want to work in consignee which is practically impossible

.
Door-to-door : ELIT works with the biggest door-to-door marketing companies of the country. ELIT has the access to a total of more than 100 direct sales reps of these companies.

.
Institutions: Schools, language courses, are both customers as end-users for our products Their students are also our customers for language teaching products

.
Bundling: For enabling the customer to get used to products and in order to provide better market penetration we provide bundling projects where products are bundled with computers in OEM agreements (Bimeks,Nobel , Technopc, Byron,…)

Commercial : An integrated modular system developed by .NET, which can maintain all the necessary records of an SME and analyses cash flow, accounts rec./pay., inventory, orders, shipments, invoices, accounting etc.

GOALS for potential
International Cooperation:

Having formed a good local customer base in educational , language teaching and commercial markets, ELIT is willing to enlarge its product portfolio with state-of-the-art new titles with licensing-in.

ELIT seeks to cooperate in various forms such as technology transfer, dealership, licensing, joint venture, subcontracting.

As a company in Turkey , ELIT sees the lack of English language knowledge. For increasing the number of people fluent in English ELIT targets to fortify its position in private primary, middle and high schools, state universities, government bids and corporate institutions.
